Bringing out the Best in Children - Nurturing them for Always!

Roots was established on 10th April, 1988 at 74 Harley Street, Rawalpindi, Pakistan by Mrs Riffat Mushtaq as the first International Montessori School in the twin cities of Rawalpindi/Islamabad. Roots was the brainchild of a great visionary and dynamic educationalist imbued with tremendous compassion for children. Mrs Riffat Mushtaq's roots can be traced back to her illustrious Grand Father, Late Khan Mohammad Khan Sahib (MLA) who is commonly known as the "Sir Sayyed of Kashmir". Having nurtured children for over two decades, she laid the foundation of a new schooling model which focused on modern 21st century education. "Roots is the home of love, joy and creativity" as she believed learning should be an enjoyable experience for young children. Thus she innovated varied learning and teaching approaches which focused on the holistic development of the child. She believed while no child is exactly like another, for each the level of achievement can be raised, aspirations stirred, potential talents discovered and developed so that he can find his own worth and dignity and feel the thrill of success. With a humble beginning of 50 pupils, roots has grown by leaps and bounds into an academic institution par excellence. Today, Roots alumni is spread out around the globe and roots is recognized as one of the top international schools of the world for its quality of pupils and high standard of quality education. By the Grace of Allah Almighty roots has matured to an organization with almost 150 branches in different cities of the country, having a workforce of 5000 employees and student population of about 30,000. 'Roots' is poised to be a leader and innovator in the preparation of teachers, administrators, counselors and other educational professionals who use technology to transform the learning process. Emerging technologies will continue to change how we communicate, teach, learn and respond to an increasingly global society. Our history demonstrates our dedication to research and cross-sector collaboration that will empower educators and their students to be 21st century learners and leaders, contribute to our social and economic well-being and meet the challenges of a global knowledge society. Roots is the first school to introduce community services, environmental education, foreign languages and citizenship across its curriculum. Each year hundreds of students win scholarships from the world top ranking universities by competing at the global platform and till now Roots has set 4 world records thus it has a leading role in making academic history of Pakistan. Roots is effectively contributing to nation building by opening windows of opportunities to the brilliant youth of the country and thus empowering the human resource – our most valuable asset – our youth. Roots is unique as it evolves around a vision: Our Belief: "Sharing is the essence of human relationship." Our Ideals of 21st Century Education: "Learning to know, Learning to be, Learning to do and Learning to live together." Our Commitment: "Each One, Teach One. Each one, Empower One." Our Slogan: "Pakistan our Pride! Pakistan our Identity!" Our Curriculum Doctrine: Promoting Knowledge, Skills and Values through 3 E's: Exposure, Expansion and Exploration. Within 30 years' time, Roots has achieved eminence above every other seat of learning and has won the appreciation of parents who have been our most valuable pillar of strength and have played a pivotal role in the success of the institution. Due to the all-round excellence being cultivated in the institution Roots has the distinct honour of receiving numerous international and national awards of excellence by virtue of its technology integrated curriculum, innovation and professional advancement. While we are proud of our past, we are enthusiastic about the future of our organization. We envision its advancement at par with the leading educational institutions globally and foresee a very bright and prosperous future for our youth contributing towards a better Pakistan and a better world at large.

Roots School System is a success to be marveled at. Over the period of last 30 years, Roots School System has grown by leaps and bounds nationwide, having its presence in major cities of Pakistan in state-of-the-art campuses. The school employs more than 5000 people with an estimate of 30,000 students currently enrolled. With more than 30,000 active alumni, Roots is making a difference in every field. Some major achievements are:
 Pakistan's 1st ISO 9001:2015 certified school.

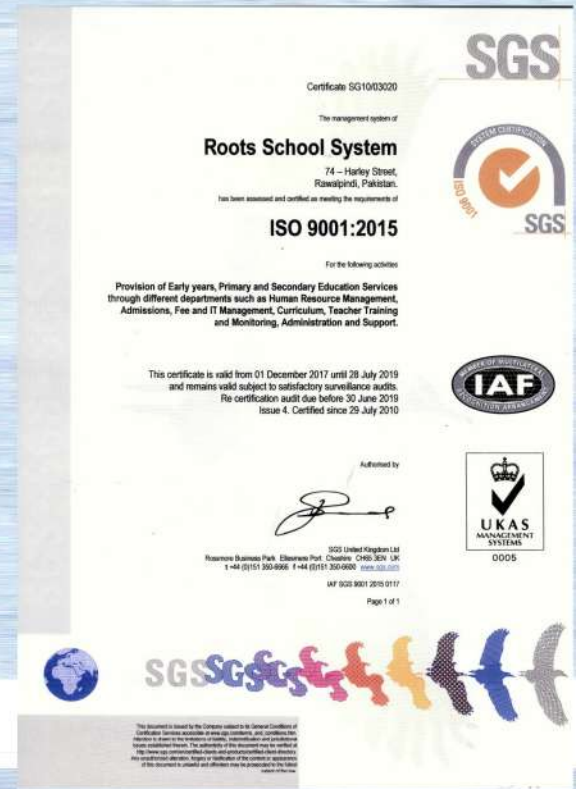

Roots School System **won BEST OF THE BEST AWARD** on demonstrating the core values of business excellence, product excellence, sustainability and success in providing academic services. The award honours organizations through the acknowledgment of innovative business processes, product development, enterprise, sustainability and overall business success. The award also recognises the important social and environmental contributions made by organisations through excellence of service, commitment to their customers, philanthropic ideals, ethical behaviour and environmental sustainability.

The Roots School System was named **THE FASTEST GROWING ORGANISATION** at Pakistan 100 Awards, which was attended by many dignitaries, successful businessmen and entrepreneurs from all over the world. The Pakistan 100 are some of the most sophisticated entrepreneurs, who contribute in creating thousands of new jobs each year, and with worldwide visibility, they can expand and modernise the economic base of the region.

“We are humbled on our achievements in the field of education for the last 30 years. We shall continue serving the nation by harnessing the potential of our youth and thus producing productive and humane citizens who could contribute towards a better Pakistan and a better world at large?”

Riffat Mushtaq
 Aizaz-e-Fazeelat

ROOTS SCHOOL SYSTEM PAKISTAN'S FIRST ISO 9001:2015 CERTIFIED SCHOOL

Roots School System Pakistan makes history to achieve ISO 9001:2015 certification from SGS Head Quarters under the authority of United Kingdom Accreditation Service (UKAS) and Pakistan National Accreditation Council (PNAC). This certification is a testament to the fact that RSS is in compliance with international best educational teaching, learning, management and administrative practices. Roots School System has now successfully achieved the latest certification standard of the International Organization for Standardization ISO 9001:2015 certification. RSS has successfully completed its documentation and implementation of its Educational Quality Management System (EQMS) and Operation Manuals in compliance with the latest ISO 9001:2015 standards and based on this successful completion the SGS (certification body), a critical review/audit of RSS processes, was conducted by the SGS auditors on June 30th 2017 at RSS Head Office. SGS audited critically and recommended RSS Educational Quality Management System (EQMS) for ISO 9001:2015 certification. The CEO Founder, Executive Director, faculty and management congratulate all our stakeholders, partner organizations, international affiliates, member organizations, faculty, alumni, parental and student community for the extraordinary achievement of ISO 9001:2015 Certification.

Roots is About...

Innovation, Opportunity, Excitement, Support & Development

ROOTS BRINGS THE WORLD AT YOUR DOOR STEP...

OPPORTUNITY;

Roots offers a world class educational experience to everyone with the ability to benefit, regardless of their economic circumstances. Roots' courses are challenging and rigorous, guided and inspired by our first class academic staff.

EXCITEMENT;

Life is never dull in our campus community! We work hard and play hard at Roots.

SUPPORT;

At Roots, you will live and work in a caring and supportive environment.

INNOVATION;

Roots has a reputation for new thinking and for doing things differently.

DEVELOPMENT;

At Roots, education will develop your skills, knowledge and accomplishments to equip you for your chosen career.

“ You know that the importance of education and right type of education cannot be over-emphasized. There is no doubt that the future of our state will and must greatly depend upon the type of education and the way in which we bring up our children as the future servants of Pakistan. Education does not merely mean academic education, and even that appears to be of a very poor type. What we have to do is to mobilize our people and build up the character of our future generations. There is immediate and urgent need for training our people in the scientific and technical education in order to build up future economic life, and we should see that our people undertake scientific commerce, trade and particularly, well-planned industries. But do not forget that we have to compete with the world, which is moving very fast in this direction. Also, I must emphasize that greater attention should be paid to technical and vocational education. In short, we have to build up the character of our future generations which means highest sense of honour, integrity, selfless service to see that they are fully qualified or equipped to play their part in the various branches of economic life in a manner which will do honour to Pakistan. ”

Quaid-e-Azam

WELCOME MESSAGE CEO & FOUNDER CHAIRPERSON

Dear Readers,

It gives us immense satisfaction and joy to see the overall development of students during the year 2016-2017. Roots is the “home of love, joy and creativity”, where every child is loved and respected.

In our pursuit to nurture a child, we continue to place emphasis on holistic learning and growth in our students, with moral values as our compass. We wish to enrich our students' learning experiences by creating more engaged and experimental learning opportunities for them while deepening their learning through reflection. We hope that while we engage our students to enjoy their learning, we develop in them lifelong skills and enduring values that will guide them in their lives. Throughout the year students are provided with varied exciting opportunities to display their creative abilities and skills and to think and learn logically by

participating in a wide spectrum of co-curricular and extra-curricular activities within the school as well as at the national and international forums. Our young, vibrant and confident students excel in all the competitions by displaying extraordinary talent and thus earn awards and appreciation for their multifaceted skills.

Students are encouraged to understand the cause of things and explore the unknown. They are taught to dream, to aspire for heights of excellence and build lives on the belief that “sharing is the essence of human relationship”. Roots 3 E's approach— exposure, expansion and exploration encapsulates what we aspire our students and staff to become. This vision hinges on our belief that each member of Roots family can and will give and achieve his best. We instill nationhood spirit, values of peace, harmony, tolerance, empathy, justice, fair play, child rights, respect for all cultures and religions, good citizenship traits

and love for humanity in our students at the grass roots level. With this as our foundation, we are committed to providing them meaningful experiences to develop and realise their potential to their maximum possible. Our staff will always remain the bedrock of school culture and glory as they work together unfaltering in their efforts to nurture our students' varied talents and abilities. At Roots our world is in constant motion, giving birth to creativity and innovation and thus invoking our students' imagination. From these amazing images of all our activities, the editorial board has worked incessantly to give you an insight into our “happening world” where every day dawns with a new challenge, hope and inspiration. Thank you for your confidence in us!

We assure you of our continuous commitment in bringing out the best in our children. Our aim is to produce humane citizens imbued with strong values to contribute towards a prosperous Pakistan and a better world at large.

Warm regards,

Riffat Mushtaq

Roots School System

The Key to SUCCESS — FOCUS on your destiny

[The things in our schools that truly count cannot be counted. You can't put a number on character, a rating on a teacher's passion, or a rank on a kid's excitement.]

Note From EXECUTIVE DIRECTOR

Pakistan is blessed with exceptionally talented and brilliant young minds and I have always believed that if given the platform, right training and exposure they can break the barriers of mediocrity and achieve the extraordinary; all they need is proper guidance and grooming to realize their own potential; and once they do, nothing can hold them back from bringing the positive and much needed change in our society. This thought is the cornerstone of Roots School System.

At Roots School System, we aim at producing students who not only achieve academic excellence but due to their impeccable moral strength and unparalleled intellectual capabilities prove to be an indispensable asset to their community.

As career counselors, our faculty is specially trained to help the students choose the right path, explore their talents and skills and be all they can be. Over the years we have introduced and implemented specially designed programs to ensure maximum outputs from the students; these programs help students grow through learning, discovery and acquisition of complete and right knowledge. Our courses challenge the intellectual capacity of each student and push them to display their best in both academic and extracurricular areas.

Roots College International is not just about securing good grades; it is about helping students grow into gifted and morally strong human beings – who are ideal role models to their successors. I feel proud to say that our students have been responsible in introducing some of the most crucial and talked about social issues at both national and international level. They are eager and dedicated to play their part in spreading awareness regarding these issues and make a difference in millions of lives.

As a result of their immense hard work, outstanding results and selfless community services, Roots' students find it easy to secure spots at some of the leading universities across the globe. Our students are now a part of top educational institutions like Harvard, Yale, Oxford, Dartmouth, Penn, John Hopkins, TUFTS, Duke and Brown to name a few.

This year again our students have gained coveted acceptance offers from prestigious top universities including the top IVY League Universities: Oxford, Cambridge and Liberal Arts Colleges from all around the world. We encourage and nurture future leaders who possess the ability to make a difference in their lives as well as in the future of our country and in the world in general. We offer opportunities to those students who seek to gain higher education and wish to study at those universities which have unrivalled academic success. Collectively, this year our students have successfully obtained scholarships amounting to over (Rs. 1 Billion & 850 Million) for four years of undergraduate study in the top universities of the world. This is truly unbelievable!! Roots has certainly marked its position on the world map!

I take tremendous pride in my faculty and students. Their dedication and brilliance has made Roots the leading internationally recognized educational institution in Pakistan and the world. I promise you that Roots does not stop here, we will continue our tradition of achieving and reaching beyond excellence in education.

I am extremely proud of you and feel confident that you will lead our country towards a prosperous and stronger future!

ROOTS

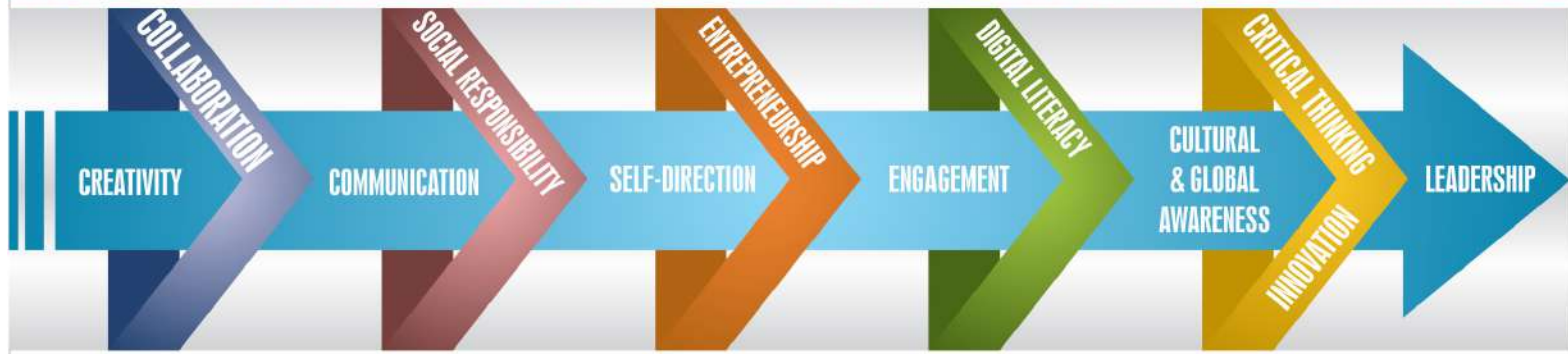

For over 30 years, Roots has been a pioneer, developing interdisciplinary educational and extra-curricular programmes designed to educate outstanding minds, create knowledge and cultivate leaders of tomorrow. I am fully confident that our graduates will use this platform that we have provided them to launch their future careers, proving to the world that they are completely able to navigate their own paths to success.

LEADERSHIP
IS ABOUT CREATING
OTHER LEADERS

ROOTS ATTRIBUTES OF 21ST CENTURY LEARNERS

Children are the challenge and inspiration of today. They are the hope; protectors and champions of the future. Only parents and teachers can pass on a legacy that destines what the world of tomorrow will be. "Roots" is the home of "creativity, love and joy," where each child is assisted in growing according to his natural design. We believe while no child is exactly like another, for each, the level of achievement can be raised, aspirations stirred, potential talents discovered and developed so that he can find his own worth and dignity.

Education, like our environment is constantly changing. Whilst the essential virtues of honesty, integrity, common sense and tolerance never vary, the way in which we approach the task of making the most of each child's talent is considerably affected by what happens in the world outside the school. It is therefore essential that we equip our pupils as best as we can to meet the challenges of modern living. This means change within the schools.

Years ago, education meant committing to memory large quantities of information. This practice continued for years and, to man, education became synonymous with the accumulation of facts. The more one taught the better the school. Thus, less attention was paid to the need to use this knowledge to reach logical, reasoned conclusion.

Roots curriculum is broad based and it encompasses the ability to think and learn logically, caters inquiry based learning to develop enthusiastic learners; who have the ability to produce and present arguments based on logic and reasoning. Roots Primary Curriculum provides ample room and opportunities to interact socially, discuss

problems and find remedial measures, explore the unknown and reach out for information. Hence, it aims at maximum exposure, social interaction and develops a balanced personality by bringing out the best in a child, intellectually, spiritually, physically, culturally and morally. It is vital that the mind and intellect, which pilot the dynamics of personality, are developed along the right lines.

We are living in the information era, where all the knowledge of the centuries is available on the click of a mouse. Hence, the emphasis has shifted from the acquisition of facts to the techniques of dealing with information, systematically and logically. We aim to teach students the ways to reason, the how and why of things and where to find an accurate piece of information and what to do with it when acquired. Thus, we endeavor to develop these skills at the primary level by exposing our young learners to a variety of stimulating activities which are spearheaded by the young students themselves. The teachers act as facilitators and are continuously directing the children's energies into constructive channels.

Roots School Systems' (RSS) Department of Qualifications Curriculum and Assessments (DQCA) has a committed team of curriculum developers who are the finest chosen practising teachers of the system. Department of Qualifications Curriculum and Assessments (DQCA) believes in continuous research and development (R & D) whereas the curriculums are reviewed and reformed from time to time, considering and addressing the needs of the millennials' of the digital era. Roots DQCA is the vital engine leading the school to achieve highest standards of quality and delivery of

roots curriculum. The professional teachers act as inspectors, mentors and trainers throughout the academic term by continuously visiting and evaluating the teaching and learning standards of the respective teachers and students. A very comprehensive individual teacher's performance proforma is maintained and professional training is imparted in areas which need to be strengthened. Teacher- Training is an integral component of RSS. Annual Teacher Development Conferences are held in which leading international trainers, scholars and motivational speakers are invited to enlighten RSS Teachers on the latest learning and teaching approaches being practised around the world. RCPDD - RSS Department of continuous professional development remains engaged in conducting workshops for teachers throughout the year as we strongly believe that only quality teachers can breed quality pupils.

We instill nationhood spirit, values of peace, harmony, tolerance, justice, fair play, child rights, respect for all cultures, good citizenship traits and love for humanity in our students at the grass roots level. With this as our foundation, we are committed to providing them meaningful experiences to help them develop and realise their potentials, to their optimum levels. Assuring you of our continuous endeavors in promoting 21st century education and skills.

Learning to know | Learning to do | Learning to be | Learning to live together

Promoting Knowledge, Skills and Values

Roots success is based on its unique approach to students learning, curriculum, assessments, teaching development and beyond the classroom learning initiatives.

We're taking
teaching and learning

Above & Beyond

Roots is the “home of love, joy and creativity”, where every child is loved, respected and encouraged to uncover his hidden potential and develop curiosity and passion for a lifelong learning. ROOTS AIM is to produce humane citizens imbued with strong values to contribute towards a prosperous Pakistan and a better world at large.

since
1988

SCHOOL WITH A DIFFERENCE!

OUR BELIEF: “Sharing is the essence of human relationship.”

OUR IDEALS OF 21ST CENTURY EDUCATION:

“Learning to know, Learning to be, Learning to do and Learning to live together.”

OUR COMMITMENT: “Each One, Teach One! Each one, Empower One!”

OUR SLOGAN: “Pakistan our Pride! Pakistan our Identity!”

OUR CURRICULUM DOCTRINE: Promoting Knowledge, Skills and Values through 3 E's: Exposure, Expansion and Exploration.

Our Mission Statement

Roots, aim is to bring out the best in a child **MENTALLY, INTELLECTUALLY, ACADEMICALLY, PHYSICALLY and CULTURALLY** by developing the attitudes, abilities and skills in the students, required to meet the Global Challenges through advancements in curriculum, teaching methodology, school culture and technology.

Our Vision

To continue to place emphasis on all-rounded learning and growth in students with impeccable moral values of **RESPECT, DIGNITY, HONESTY, FAIRNESS, PRIDE, FULFILMENT AND UNPARALLEL INTELLECTUAL CAPABILITIES**.  paves children's ways to continue to place emphasis on holistic learning and growth in students by meeting high standards of best international educational approaches to create the environment where everyone is valued, with maximum informed choices, to create, dream, discover, design their own career path, also stirring students' aspirations for world and to make them discover their potential.

Keeping in mind the changing paradigm of education today,  is in constant motion, giving birth to **CREATIVITY and INNOVATION** and thus invoking students' imagination.  is empowering students as digital leaders & ambassadors who, with their technological awareness are creating linkages to share ideas, knowledge and practices while following the road map of diversity, globalization and inter-dependence, respecting cultural, traditional and spiritual values of fellow citizens.

 School System promotes a healthy lifestyle by providing a curriculum which encourages young Digital Learners of 21st century to enrich learning experiences by creating more engaging and experiential learning opportunities for them to attain profound knowledge and deeper learning.

The vision hinges on our belief that each member of  family can and will give and achieve his best. We instill the spirit of nationhood, values of peace, harmony, tolerance, empathy, justice, fair play, child rights, respect for all cultures, religions & love for humanity.  will pioneer the development of new knowledge, scholarly understanding, practicing global learning and supporting the sustainable development in the wider community. Roots will remain committed to an adaptive environment through the development of talented, highly skilled and motivated staff, effective governance, management, leadership and beneficial collaboration with other institutions internationally on global platform.

01

PRIORITIES

To deliver excellence in learning and teaching, excellence in research, scholarship and the development of professional practice as a stimulating student experience.

02

ROOTS' PERSPECTIVE

The foundations of our perspective are the things we have always stood for celebrating diversity, creativity, vitality & excellence. The world is changing dramatically and the things that make Roots different are now more relevant than ever before. Diversity is important because the huge range of different disciplines, culture, backgrounds and point of view of the school / college make it a uniquely challenging learning environment perfectly suited to the kind of world we send our graduates out into as proficient professionals.

03

CREATIVITY

Creativity has made Roots an innovator in so many fields, but we recognize that at the heart of our creative culture is the ability to thrive in a complex and ever-changing environment.

04

THE VITALITY

The vitality of Roots comes from the fact that despite being one of the biggest and most rapidly expanding schools/colleges, everything that happens here happens between people.

05

OUR ACHIEVEMENTS

Excellence at Roots is not just about competition and self-advancement, but about a community of learning that cares about its members and actively helps them to achieve the best that they are capable of! The achievements of our students are possible because Roots is a lively learning community on a human scale, in which it is still possible to foster a sense of individuality. We encourage our students to contribute towards the community as well as benefitting from it. Roots has a reputation for being challenging so you're certain to come into contact with ideas, new concepts and new achievements. You'll find yourself turning problems inside out and upside down, defying convention and thus rewriting the rules. We are committed to making sure that you are offered high quality teaching and learning environment at Roots. As part of each section's quality assurance mechanisms, we take an active part in monitoring quality and standards by providing regular feedback on the Content Monitoring Committees from Department of Quality, Curriculum and Teaching Standards regularly visiting Roots Branches nationwide and making recommendations about the quality and standards of programmes of study.

**SHAPING
YOUR FUTURE**

Bringing out the best in CHILDREN Since 1988 nurturing them for ALWAYS!

1st. International Montessori School Estb. in Twin Cities of Rawalpindi & Islamabad

Our CORE VALUES

INHERENT FLEXIBILITY

The children go at their own pace and are never made to feel that they are "behind," The montessori directress adapts individualized lessons for each child, depending on their learning style, interests and level of ability.

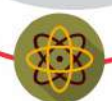

Roots International Montessori Programme-RIMP

highly values freedom, responsibility, curiosity, thinking outside the box, motivation, concentration, persistence, respect for all living things, manners, discipline, structured montessori environment with a variety of choices & good citizenship traits. We believe learning should be an enjoyable experience for young children. Thus we have innovated varied learning and teaching approaches to uncover the hidden potential talent in each child and nurture it with tender care, love and encouragement. As we believe each child is "UNIQUE".

A child-sized world!
Everything is within the reach of the child sized, including the equipment, furniture and tools. When everything is just their size, children feel respected & proud of their classroom

Rigorous Systematic Synthetic Phonic Programme is rooted to enable children to read, spell and write well with comprehensive multi-sensory resources and practical guidance to develop excellent super word-readers as well as excellent SUPER COMPREHENDERS.

CHILD-CENTERED CLASSROOMS: A carefully prepared environment encourages students to practice self-discipline, use manipulative materials that appeal to the senses & provide real-life experiences. Focus on the process; No tests or grades. Emphasis is on collaboration. Students independently use self-teaching materials; learn from each other, directress provides individualized lessons for each child. Inquiry-based learning provides students the opportunity to advance academically at their own pace, without limits. First school to introduce Robotics, Film & Drama Making, Citizenship, Smart Brain & Environmental Education at grass root levels.

ROOTS INTERNATIONAL MONTESSORI PROGRAMME-RIMP

ROOTS THEMATIC MONTESSORI CURRICULUM ESSENTIALS

"following the child." It fosters a love of learning in children. It helps them to build self-confidence, inner discipline, a sense of self-worth and guides them towards positive, desirable social behaviour. While encouraging independence, self-reliance and an inquisitive mind, it also develops respect for other people and a caring attitude towards the child's environment. All of this is achieved in the orderly, prepared environment unique to the Montessori classroom, under the guidance of specially trained Montessori Directresses. Our Montessori programme is based on self-direction, non-competitiveness and cooperative activities that help a child develop a stronger self-image, high levels of academic integrity and social competence and the confidence to face challenges with optimism. Encouraged to make decisions at an early age, Montessori educated children are problem-solvers who can make appropriate choices, manage their time, and work well with others. They exchange ideas and discuss work independently. These positive communication skills build the foundation for negotiating new standards of learning.

Montessori gives your child a strong basis in his most formative years for developing into a well rounded, responsible, happy and fulfilled adult. It aims to help the young child develop his co-ordination, self image, awareness, sense of order and concentration. It is based on a sensible balance between freedom and structure specifically designed for the young child. It provides a pleasant environment with carefully devised materials that meet the child's natural needs. It provides the overall guidance of a thoroughly trained montessori directress.

The Montessori method embraces the development of the whole child and is an approach based on

Exposure | Expansion | Exploration
